

To: RDA Steering Committee

From: Renate Behrens, RSC Chair

Subject: Examples Working Group, 2023-2024

This document sets out the membership, terms of reference, and specific tasks for the Examples Working Group. It updates [RSC/Chair/2023/8](#) with a new member recruited at WLIC 2023. At the RSC Meeting in October 2023, the Secretary was instructed to add “base” before “RDA” in the text of the charges.

The purpose of the Examples Working Group is to support the RDA Examples Editor in developing base RDA examples and supporting RDA communities in creating and sharing RDA examples across different language translations.

## 1. General terms of reference

The Working Group operates within [RSC/Operations/3](#), the general terms of reference for RSC Working Groups.

This is a standing Working Group. The chair is a voting member of the RDA Steering Committee (RSC), serving as the RDA Examples Editor.

## 2. Background

The RSC develops *RDA: Resource Description and Access* for international use with a range of encoding schemes typically employed in library and related applications. RDA uses controlled vocabularies to support resource discovery and is intended to cover all types of content and media. RDA instructions and guidance are published in RDA Toolkit.

Examples illustrate elements as appropriate for the language version of RDA in which they appear. The data are correct in the context of the instruction, and may not necessarily reflect the forms found in databases of agents using RDA.

## 3. Charge (duties and responsibilities)

The Group is charged to:

- Assist the RDA Examples Editor in developing RDA examples
- Support RDA communities in creating RDA examples for local practices
- Support interchange and reuse of examples in different RDA translations and across different communities of RDA users

#### **4. Membership**

Honor Moody, Chair and RDA Examples Editor, USA

Sita Bhagwandin, Netherlands
