To: RDA Steering Committee

From: Linda Barnhart, RSC Secretary

Subject: Implementing the Collections Model in RDA

The text below reflects the decisions made by the RDA Steering Committee during its October 2021 meeting.

Most recommendations in RSC/TechnicalWG/2021/2 were passed by unanimous consent without discussion, but a handful of issues were raised for discussion. In those cases, the decisions recorded below will not mirror the original written proposal and are indicated as based on RSC discussion.

Follow-up actions for some recommendations will be developed for future RSC discussion; see the minutes for details.

Although the proposal was presented in four parts, the decisions are combined here in one document.

Updates have been made to RDA Reference which will propagate to the RDA Registry and the RDA Toolkit. Instruction text has been added as well to RDA Toolkit. Both will appear in the next Toolkit release.

List of Deprecated and Soft-Deprecated Elements

For details on these deprecated and soft-deprecated elements, see Appendix B.

Deprecated Elements

These RDA elements have been deprecated and will no longer appear in RDA Toolkit. The registered IRIs for the deprecated elements will remain in the RDA Registry, but all labels, definitions, and scope notes will have '(Deprecated)' appended to them.

Agent: collection registrar agent of (range = item)
Agent: collector agent of (range = item)
Agent: curator agent of

Collective Agent: collection registrar collective agent of (range = item)
Collective Agent: collector collective agent of (range = item)
Collective Agent: curator collective agent of

Corporate Body: collection registrar corporate body of (range = item)
Corporate Body: collector corporate body of (range = item)
Corporate Body: curator corporate body of

Expression: abstract of expression
Expression: abstracted as expression
Expression: catalogue expression
Expression: catalogue of expression
Expression: finding aid expression
Expression: finding aid for expression
Expression: index expression
Expression: index to expression
Expression: indexed in expression

Expression: indexing for expression

finding aid of, analytic

Prerecording

Recording
Record this element as a value of Manifestation: appellation of manifestation or as an IRI.

Recording an unstructured description

Record an unstructured description for a **related manifestation** as a value of Manifestation: title of manifestation.

For general guidance on unstructured descriptions, see Guidance: Recording methods. Recording an unstructured description.

Recording a structured description

Record a structured description for a **related manifestation** as a value of Manifestation: access point for manifestation.

For general guidance on structured descriptions, see Guidance: Recording methods. Recording a structured description.

Recording an identifier

Record an identifier for a **related manifestation** as a value of Manifestation: identifier for manifestation.

For general guidance on identifiers, see Guidance: Recording methods. Recording an identifier.

Recording an IRI

Record an IRI for a related expression as a *real-world object*.

For general guidance on IRIs, see Guidance: Recording methods. Recording an IRI.

Related Elements

For broader elements, see Work: finding aid of.

For the inverse of this element, see Manifestation: catalogue.

Domain
Work

Prerecording

Recording

Recording an unstructured description
OPTION
Record an uncontrolled term or a term that is transcribed from a *source of information*.

OPTION
Record details or other unstructured information.

For general guidance on unstructured descriptions, see Guidance: Recording methods. Recording an unstructured description.

Recording a structured description
OPTION
Record an appropriate terms from the RDA Collection Accrual Method *vocabulary encoding scheme*.

      deposit
      donation
      license
      loan
      purchase

For a definition, scope note, and notation of a term, see RDA Collection Accrual Method.
This *vocabulary encoding scheme* has incomplete coverage of scope.
Additional values may be included in the future.

OPTION
Record a term from another suitable *vocabulary encoding scheme*. For general guidance, see Guidance: Introduction to RDA. Data elements. Data values.

OPTION
Record a *vocabulary encoding scheme* that is used as a *source of information* for a term. For general guidance, see Guidance: Data provenance. Recording a source of metadata.

CONDITION
None of the terms in a vocabulary encoding scheme is appropriate or sufficiently specific.

OPTION
Record a suitable uncontrolled term as an unstructured description.

For general guidance on structured descriptions, see Guidance: Recording methods. Recording a structured description.

Recording an identifier

OPTION

Record a notation for a term from the RDA *vocabulary encoding scheme*. For a list of notations, see RDA Collection Accrual Method.

OPTION

Record an identifier or notation for a term from another suitable vocabulary encoding scheme. For general guidance, see Guidance: Data provenance. Recording a source of metadata.

OPTION

Record a *vocabulary encoding scheme* that is used as a *source of information* for an identifier. For general guidance, see Guidance: Data provenance. Recording a source of metadata.

For general guidance on identifiers, see Guidance: Recording methods. Recording an identifier.

Recording an IRI

OPTION

Record an IRI for a term or concept as a *real-world object* selected from the RDA *vocabulary encoding scheme*. For a list of IRIs, see RDA Collection Accrual Method.

OPTION

Record an IRI for a term or concept as a *real-world object* selected from another suitable *vocabulary encoding scheme*.

For general guidance on IRIs, see Guidance: Recording methods. Recording an IRI.

[Based on RSC/TechnicalWG/2021/2 - Part 1, Recommendation 1 and RSC discussion]

Expression

Prerecording

Recording
Record this element as a value of Expression: appellation of expression or as an IRI.

Recording an unstructured description
Record an unstructured description for a related expression as a value of Expression: title of expression.

For general guidance on unstructured descriptions, see Guidance: Recording methods. Recording an unstructured description.

Recording a structured description
Record a structured description for a related expression as a value of Expression: access point for expression.

For general guidance on structured descriptions, see Guidance: Recording methods. Recording a structured description.

Recording an identifier
Record an identifier for a related expression as a value of Expression: identifier for expression.

For general guidance on identifiers, see Guidance: Recording methods. Recording an identifier.

Recording an IRI
Record an IRI for a related expression as a *real-world object*.

For general guidance on IRIs, see Guidance: Recording methods. Recording an IRI.

Related Elements

For broader elements, see Work: description of expression.

For the inverse of this element, see Work: expression described with metadata by.

[Based on RSC/TechnicalWG/2021/2 - Part 2, Recommendation 9]

Work: metadata description of family (rdaw:P10613)

Definition and Scope

A family that is described by a metadata work.

Element Reference
    IRI
http://rdaregistry.info/Elements/w/P10613
    Domain
Work
    Range
Family

Prerecording

Recording

Record this element as a value of Family: appellation of family or as an IRI.

Recording an unstructured description

Record an unstructured description for a related family as a value of Family: name of family.

For general guidance on unstructured descriptions, see Guidance: Recording methods. Recording an unstructured description.

Recording a structured description

Record a structured description for a related family as a value of Family: access point for family.

For general guidance on structured descriptions, see Guidance: Recording methods. Recording a structured description.

Recording an identifier

Record an identifier for a related family as a value of Family: identifier for family.

For general guidance on identifiers, see Guidance: Recording methods. Recording an identifier.

Recording an IRI
Record an IRI for a related expression as a *real-world object*.

For general guidance on IRIs, see Guidance: Recording methods. Recording an IRI.

Related Elements
For broader elements, see Work: description of family.

For the inverse of this element, see Work: family described with metadata by.

[Based on RSC/TechnicalWG/2021/2 - Part 2, Recommendation 9]

Work: metadata description of item (rdaw:P10616)

Definition and Scope
An item that is described by a metadata work.

Element Reference
> **IRI**
> http://rdaregistry.info/Elements/w/P10616
> **Domain**
> Work
> **Range**
> Item

Prerecording

Recording
Record this element as a value of Item: appellation of item or as an IRI.

Recording an unstructured description
Record an unstructured description for a related item as a value of Item: title of item.

For general guidance on unstructured descriptions, see Guidance: Recording methods. Recording an unstructured description.

Recording a structured description
Record a structured description for a related item as a value of Item: access point for item.

For general guidance on structured descriptions, see Guidance: Recording methods. Recording a structured description.

Recording an identifier
Record an identifier for a related item as a value of Item: identifier for item.

For general guidance on identifiers, see Guidance: Recording methods. Recording an identifier.

Recording an IRI
Record an IRI for a related expression as a *real-world object*.

For general guidance on IRIs, see Guidance: Recording methods. Recording an IRI.

Related Elements
For broader elements, see Work: description of item.

For the inverse of this element, see Work: item described with metadata by.

Work: metadata description of manifestation (rdaw:P10617)

Definition and Scope
A manifestation that is described by a metadata work.

Element Reference
IRI
http://rdaregistry.info/Elements/w/P10617
Domain
Work
Range
Manifestation

Prerecording

Recording
Record this element as a value of Manifestation: appellation of manifestation or as an IRI.

Recording an unstructured description
Record an unstructured description for a related manifestation as a value of Manifestation: title of manifestation.

For general guidance on unstructured descriptions, see Guidance: Recording methods. Recording an unstructured description.

Recording a structured description
Record a structured description for a **related manifestation** as a value of Manifestation: access point for manifestation.

For general guidance on structured descriptions, see Guidance: Recording methods. Recording a structured description.

Recording an identifier
Record an identifier for a **related manifestation** as a value of Manifestation: identifier for manifestation.

For general guidance on identifiers, see Guidance: Recording methods. Recording an identifier.

Recording an IRI
Record an IRI for a related expression as a *real-world object*.

For general guidance on IRIs, see Guidance: Recording methods. Recording an IRI.

Related Elements
For broader elements, see Work: description of manifestation.

For the inverse of this element, see Work: manifestation described with metadata by.

Work: metadata description of nomen (rdaw:P10618)

Definition and Scope
A nomen that is described by a metadata work.

Element Reference
    IRI
http://rdaregistry.info/Elements/w/P10618
    Domain
Work
    Range
Nomen

Prerecording

Recording

Record this element as a value of Nomen: nomen string or as an instance of a Nomen.

Recording an unstructured description

Record an unstructured description for a related nomen as a value of Work: title of work.

For general guidance on unstructured descriptions, see Guidance: Recording methods. Recording an unstructured description.

Recording a structured description

Record a structured description for a related nomen as a value of Work: access point for work.

For general guidance on structured descriptions, see Guidance: Recording methods. Recording a structured description.

Recording an identifier

Record an identifier for a related nomen as a value of Work: identifier for work.

For general guidance on identifiers, see Guidance: Recording methods. Recording an identifier.

Recording an IRI

Record an IRI for the instance of a Nomen as a *real-world object*.

Do not record an IRI for the entity that is being described.

A nomen references the Nomen: nomen string that is the value of an *appellation element*.

Related Elements

For broader elements, see Work: description of nomen.

For the inverse of this element, see Work: nomen described with metadata by.

[Based on RSC/TechnicalWG/2021/2 - Part 2, Recommendation 9]

Appendix D: Detailed Content of Changed Element Definitions

Agent: agent described by (rdaa:P50426)

Definition and Scope
A work that is a description of an agent.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2 follow-up]

* * *

Agent: compiler agent of (rdaa:P50189)

Definition and Scope
A work that involves a responsibility of an agent for creating a metadata description set.

A metadata description set includes a bibliography of works, expressions, or manifestation, a directory of agents and places, and an analytic finding aid.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 9]

* * *

Collective Agent: collective agent described by (rdaa:P50427)

Definition and Scope
A work that is a description of a collective agent.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2 follow-up]

* * *

Collective Agent: compiler collective agent of (rdaa:P50711)

Definition and Scope
A work that involves a responsibility of a collective agent for creating a metadata description set.

A metadata description set includes a bibliography of works, expressions, or manifestation, a directory of agents and places, and an analytic finding aid.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 9]

* * *

Corporate Body: compiler corporate body of (rdaa:P50862)

Definition and Scope
A work that involves a responsibility of a corporate body for creating a metadata description set.

A metadata description set includes a bibliography of works, expressions, or manifestation, a directory of agents and places, and an analytic finding aid.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 9]

* * *

Corporate Body: corporate body described by (rdaa:P50369)

Definition and Scope
A work that is a description of a corporate body.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2 follow-up]

* * *

Expression: concordance expression (rdae:P20108)

Definition and Scope
An expression of a concordance work that is derived from another expression.

[Based on RSC/TechnicalWG/2021/2 – Part 3, Recommendation 23]

* * *

Expression: concordance to expression (rdae:P20181)

Definition and Scope

An expression that is used as the basis of a concordance work that is realized by another expression.

[Based on RSC/TechnicalWG/2021/2 – Part 3, Recommendation 23]

* * *

Expression: expression critiqued by (rdae:P20272)

Definition and Scope

A work that is a critical evaluation of an expression.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 1 and on Part 2, RSC decision on Question 1]

* * *

Expression: expression described by (rdae:P20269)

Definition and Scope

A work that is a description of an expression.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2]

* * *

Expression: expression evaluated by (rdae:P20273)

Definition and Scope

A work that is an examination or judgement of an expression.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 3]

* * *

Expression: expression reviewed by (rdae:P20274)

Definition and Scope

A work that is a brief evaluation of an expression.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 4 and Part 2, RSC decision on Question 1]

<p align="center">*   *   *</p>

Family: compiler family of (rdaa:P51013)

Definition and Scope

A work that involves a responsibility of a family for creating a metadata description set.

A metadata description set includes a bibliography of works, expressions, or manifestation, a directory of agents and places, and an analytic finding aid.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 9]

<p align="center">*   *   *</p>

Family: family described by (rdaa:P50370)

Definition and Scope

A work that is a description of a family.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2 follow-up]

<p align="center">*   *   *</p>

Item: bound with (rdai:P40032)

Definition and Scope

An item that is physically combined with an item to form a collection manifestation.

Each item originally exemplifies a manifestation that is a sheet or volume.

[Based on RSC/TechnicalWG/2021/2 – Part 1, Recommendation 14]

* * *

Item: held with (rdai:P40029)

Definition and Scope

An item that is held in the same collection as an item.

[Based on RSC/TechnicalWG/2021/2 – Part 1, Recommendation 17]

* * *

Item: item described by (rdai:P40062)

Definition and Scope

A work that is a description of an item.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2 follow-up]

* * *

Manifestation: accompanied by manifestation (rdam:P30027)

Definition and Scope

A manifestation that is a part of the same manifestation as another part manifestation.

[Based on RSC/TechnicalWG/2021/2 – Part 1, Recommendation 18]

* * *

Manifestation: manifestation critiqued by (rdam:30257)

Definition and Scope

A work that is a critical evaluation of a manifestation.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 1 and on Part 2, RSC decision on Question 1]

* * *

Manifestation: manifestation described by (rdam:P30254)

Definition and Scope
A work that is a description of a manifestation.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2]

*   *   *

Manifestation: manifestation evaluated by (rdam:P30258)

Definition and Scope
A work that is an examination or judgement of a manifestation.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 3]

*   *   *

Manifestation: manifestation reviewed by (rdam:P30259)

Definition and Scope
A work that is a brief evaluation of a manifestation.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 4 and on Part 2, RSC decision on Question 1]

*   *   *

Manifestation: on carrier unit with (rdam:P30035)

Definition and Scope
A manifestation that is a part of the same carrier unit as another part manifestation.

[Based on RSC/TechnicalWG/2021/2 – Part 1, Recommendation 19]

*   *   *

Nomen: nomen described by (rdan:P80178)

Definition and Scope
A work that is a description of a nomen.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2 follow-up]

* * *

Person: compiler person of (rdaa:P50560)

Definition and Scope
A work that involves a responsibility of a person for creating a metadata description set.

A metadata description set includes a bibliography of works, expressions, or manifestation, a directory of agents and places, and an analytic finding aid.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 9]

* * *

Person: person described by (rdaa:P50368)

Definition and Scope
A work that is a description of a person.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2 follow-up]

* * *

Place: place described by (rdap:P70054)

Definition and Scope
A work that is a description of a place.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2 follow-up]

* * *

RDA Entity: RDA entity critiqued by (rdax:P00024)

Definition and Scope
A work that is a critical evaluation of an RDA entity.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 1 and on Part 2, RSC decision on Question 1]

* * *

RDA Entity: RDA entity described by (rdax:P00025)

Definition and Scope
A work that is a description of an RDA entity.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2]

* * *

RDA Entity: RDA entity evaluated by (rdax:P00026)

Definition and Scope
A work that is an examination or judgement of an RDA entity.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 3]

* * *

RDA Entity: RDA entity reviewed by (rdax:P00027)

Definition and Scope
A work that is a brief evaluation of an RDA entity.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 4 and on Part 2, RSC decision on Question 1]

* * *

Timespan: timespan described by (rdat:P70060)

Definition and Scope

A work that is a description of a timespan.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2 follow-up]

*   *   *

Work: abstract (rdaw:P10107)

Definition and Scope
A work that is an objective summary of a work.

[Based on RSC/TechnicalWG/2021/2 – Part 3, Recommendation 12]

*   *   *

Work: abstract of (rdaw:P10126)

Definition and Scope
A work that is summarized in an objective manner.

[Based on RSC/TechnicalWG/2021/2 – Part 3, Recommendation 12]

*   *   *

Work: compiler agent (rdaw:P10055)

Definition and Scope
An agent who is responsible for creating a metadata description set.

A metadata description set includes a bibliography of works, expressions, or manifestations, a directory of agents and places, and an analytic finding aid.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 8]

*   *   *

Work: compiler collective agent (rdaw:P10491)

Definition and Scope

A collective agent who is responsible for creating a metadata description set.

A metadata description set includes a bibliography of works, expressions, or manifestations, a directory of agents and places, and an analytic finding aid.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 8]

* * *

Work: compiler corporate body (rdaw:P10538)

Definition and Scope

A corporate body who is responsible for creating a metadata description set.

A metadata description set includes a bibliography of works, expressions, or manifestations, a directory of agents and places, and an analytic finding aid.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 8]

* * *

Work: compiler family (rdaw:P10585)

Definition and Scope

A family who is responsible for creating a metadata description set.

A metadata description set includes a bibliography of works, expressions, or manifestations, a directory of agents and places, and an analytic finding aid.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 8]

* * *

Work: compiler person (rdaw:P10444)

Definition and Scope

A person who is responsible for creating a metadata description set.

A metadata description set includes a bibliography of works, expressions, or manifestations, a directory of persons and places, and an analytic finding aid.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 8]

*   *   *

Work: critique of expression (rdae:P10281)

Definition and Scope
An expression that is critically evaluated by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 1]

*   *   *

Work: critique of manifestation (rdaw:P10275)

Definition and Scope
A manifestation that is critically evaluated by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 1]

*   *   *

Work: critique of RDA entity (rdaw:P10359)

Definition and Scope
An RDA entity that is critically evaluated by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 1]

*   *   *

Work: critique of work (rdaw:P10182)

Definition and Scope

A work that is critically evaluated by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 1]

*   *   *

Work: evaluation of expression (rdaw:P10279)

Definition and Scope

An expression that is examined or judged by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 3]

*   *   *

Work: evaluation of manifestation (rdaw:P10273)

Definition and Scope

A manifestation that is examined or judged by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 3]

*   *   *

Work: evaluation of RDA entity (rdaw:P10361)

Definition and Scope

An RDA entity that is examined or judged by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 3]

*   *   *

Work: evaluation of work (rdaw:P10153)

Definition and Scope

A work that is examined or judged by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 3]

* * *

Work: review of expression (rdaw:P10280)

Definition and Scope
An expression that is briefly evaluated by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 4]

* * *

Work: review of manifestation (rdaw:P10274)

Definition and Scope
A manifestation that is briefly evaluated by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 4]

* * *

Work: review of RDA entity (rdaw:P10362)

Definition and Scope
An RDA entity that is briefly evaluated by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 4]

* * *

Work: review of work (rdaw:P10178)

Definition and Scope
A work that is briefly evaluated by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 4]

* * *

Work: summary (rdaw:P10109)

Definition and Scope
A work that is a brief description of a work.

[Based on RSC/TechnicalWG/2021/2 – Part 3, Recommendation 13]

* * *

Work: summary of (rdaw:P10179)

Definition and Scope
A work that is briefly described by a work.

[Based on RSC/TechnicalWG/2021/2 – Part 3, Recommendation 13]

* * *

Work: work critiqued by (rdaw:P10115)

Definition and Scope
A work that is a critical evaluation of a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 1 and on Part 2, RSC decision on Question 1]

* * *

Work: work described by (rdaw:P10118)

Definition and Scope
A work that is a description of a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 2]

* * *

Work: work evaluated by (rdaw:P10120)

Definition and Scope
A work that is an examination or judgement of a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 3]

* * *

Work: work reviewed by (rdaw:P10114)

Definition and Scope
A work that is a brief evaluation of a work.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 4 and on Part 2, RSC decision on Question 1]

* * *

Appendix E: Detailed Content of Changed Element Hierarchies

Agent: compiler agent of (rdaa:P50189)

Related Elements
For broader elements, see Agent: aggregator agent of.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 9]

       *   *   *

Collective Agent: compiler collective agent of (rdaa:P50711)

Related Elements
For broader elements, see Collective Agent: aggregator collective agent of.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 9]

       *   *   *

Corporate Body: compiler corporate body of (rdaa:P50862)

Related Elements
For broader elements, see Corporate Body: aggregator corporate body of.

[Based on RSC/TechnicalWG/2021/2 – Part 4, Recommendation 9]

       *   *   *

Expression: concordance expression (rdae:P20108)

Related Elements
For broader elements, see Work: expression of source work.

[Based on RSC/TechnicalWG/2021/2 – Part 3, Recommendation 23]

* * *

Expression: concordance to expression (rdae:P20181)

Related Elements

For broader elements, see Work: expression of derivative work.

[Based on RSC/TechnicalWG/2021/2 – Part 3, Recommendation 23]

* * *

Expression: expression critiqued by (rdae:P20272)

Related Elements

For broader elements, see Expression: expression evaluated by.

[Based on RSC/TechnicalWG/2021/2 – Part 2, Recommendation 1 and on Part 2, RSC decision on Question 1]

* * *

Expression: expression evaluated by (rdae:P20273)

Related Elements

For broader elements, see Expression: subject expression of.

For narrower elements, see

Appendix F: Detailed Content of Elements with Added Shortcut Text

Expression: concordance expression (rdae:P20108)

Prerecording

This element is a *shortcut* for the following chain of relationships:

1. Expression: concordance work for the concordance work derived from the expression
2. Work: expression of work for the expression of the concordance work

The element does not identify any concordance work.

For general guidance on shortcuts, see Guidance: Introduction to RDA. Data elements. Relationship shortcuts.

[Based on RSC/TechnicalWG/2021/2 – Part 3, Recommendation 23]

* * *

Expression: concordance to expression (rdae:P20181)

Prerecording

This element is a *shortcut* for the following chain of relationships:

1. Expression: work expressed for the concordance work realized from the expression
2. Work: concordance work for for the expression used as the source of the concordance work

The element does not identify any concordance work.

For general guidance on shortcuts, see Guidance: Introduction to RDA. Data elements. Relationship shortcuts.

[Based on RSC/TechnicalWG/2021/2 – Part 3, Recommendation 23]

* * *

Item: bound with (rdai:P40032)

Prerecording

This element is a *shortcut* for the following chain of relationships:

1. Item: holding of for the manifestation of a *collection work*
2. Manifestation: holding for the item that is included in a *collection manifestation*

The element does not identify any *collection manifestation*.

For general guidance on shortcuts, see Guidance: Introduction to RDA. Data elements. Relationship shortcuts.

[Based on RSC/TechnicalWG/2021/2 – Part 1, Recommendation 14]

*   *   *

Item: held with (rdai:P40029)

Prerecording

This element is a *shortcut* for the following chain of relationships:

1. Item: holding of for the manifestation of a *collection work*
2. Manifestation: holding for the item that is included in a *collection manifestation*
