

Response to ReligionsWG/2023/2, Revision of Person: term of rank or honour or office from the Technical Working Group

Prepared by Damian Iseminger, Chair, Technical Working Group

The Technical Working Group thanks the Religions Working Group for the proposal. The working group approves in general of all the recommendations.

For Recommendation 3, the Technical Working Group recommends that newly added option for recording a term be split into three options: one to record a term in the language in which the term was conferred, one for the language used in the country where the person resides, and one for the language preferred by the creator of the metadata.

Clean version only

OPTION

Record a term of rank, office, or address in a language in which the term was conferred.

OPTION

Record a term of rank, office, or address in a language used in a country in which the person resides.

OPTION

Record a term of rank, office, or address in a language preferred by the creator of the metadata.

Splitting into three options allows for Policy Statement writers to choose which options they wish to apply and allows for application profiles to cite their preferred option.
